

REQUEST FOR BOARD ACTION BY A BOARD MEMBER

Requester: Daniel J. Santos June 8, 2018

Brief description of Requested Action:

- Task OTD to assemble a team and conduct an independent review of the safety approach to perform work to immobilize and/or remove the plutonium-238 that remains as residual contamination within Building 235-F at the Savannah River Site. Special focus should be placed on radiological control practices, conditions of credited controls including management of administrative controls, and infrastructure to respond to potential upset conditions (such as breaches and contamination events).
- Task OTD to commence this activity within 10 business days following approval of this action.
- Task OTD to provide a final report and briefing to the Board prior to the physical removal of any additional material-at-risk in any of the cells at Building 235-F.

Much of the anticipated scope in the proposed independent review is already scheduled in the FY 2018 agency work plan. Given that, the value proposition of the proposed effort is ambiguous, and I defer to the wisdom and preferences of my fellow Board Members.

I therefore abstain.
