

Department of Energy

Washington, DC 20585

August 7, 1998

Memorandum For: DNFSB Points of Contact
Responsible Managers for DNFSB Implementation Plans

From: 
Mark B. Whitaker, Jr.
Departmental Representative to the
Defense Nuclear Facilities Safety Board (DOE S-3.1)

Subject: DNFSB INTERFACE WORKSHOP - OCTOBER 8, 1998

I am pleased to invite you to attend the Department's annual DNFSB Interface Workshop on October 8, 1998, in Washington, D.C. at DOE Headquarters. The purpose of this workshop is to exchange information and to share experiences for effectively resolving safety issues raised by the Board. The workshop will review interface policies and practices, Department initiatives in response to key Board issues, interface tools and infrastructure, and lessons learned for effective interfacing. The workshop agenda is attached.

This workshop is designed as an intensive one-day session with a full agenda. Please make your travel arrangements accordingly. Personnel from my office will be available on the day following the workshop for additional discussion and for visits to Board facilities as desired.

We are reserving a block of rooms at a local hotel and will provide further details on how to transfer one of these reservations into your name. Please let us know who and how many to expect for the workshop by contacting Josephine Ahsam (202/586-5128) of my staff by September 24, 1998.

I believe you will find this workshop well worth the investment of your time. I look forward to seeing each of you. If you need further information on the workshop, please contact me at 202/586-3887, or Ted Wyka (202/586-5128) of my staff.

DNFSB/DOE Interface Workshop

Agenda

Forrestal 7E-069

- 8:00 - 8:15 • **Welcome**
- 8:15 - 10:00 • **Interface Processes**
Overview of key points for effectively interfacing with the Board, including review of the Board enabling legislation, Board policy statements, Board structure and staffing, Department Interface Manual, key operational memos and recent initiatives, the process for Board Review of Safety-related Directives, lessons learned for coordinating meetings/site visits, lessons learned on closing Board issues and recommendations, and periodic Department/Board interface activities.
- 10:00 - 10:15 **Break**
- 10:15 - 12:00 • **Department Initiatives on Key Board-Related Issues**
Review of the current strategy and status, and future plans and expectations for ongoing Department initiatives related to significant Board-related issues, such as funding of cross organization commitments, implementing integrated safety management, improving technical capabilities of Federal personnel, and stabilizing nuclear materials to reduce risk.
- 12:00 - 1:00 **Lunch**
- 1:00 - 2:00 • **Tools to Support Effective Interfacing**
Overview of tools and resources to be used for effective interfacing with the Board, such as the Safety Issues Management System for managing commitments to the Board, the Weekly Near Terms report of recent correspondence and planned visits, the DR Web Site (<http://dr.tis.doe.gov>) to review DOE/Board correspondence and obtain other information, the Annual Report to Congress which summarizes the year's activities related to the Board, and the Department Interface Manual which established interface protocols and expectations.
- 2:00 - 4:00 • **Sharing of Site Lessons Learned**
Sharing of Lessons Learned by participating site and program offices. Topics of interest include: On-Site Board Representatives, Site Visits and Briefings, Systems for Tracking Commitments, Information Requests, and Key Board Areas of Interest.
