Honorable John T. Conway
Chairman
Defense Nuclear Facilities Safety Board
Suite 700
625 Indiana Avenue, N.W.
Washington, D.C. 20004

Dear Mr. Chairman:

The January 1996 deliverables called for in the Department's Implementation Plan for Defense Nuclear Facilities Safety Board Recommendation 94-4 are enclosed. A list of the deliverables is provided as Enclosure 1 to this letter.

Competing priorities at the Oak Ridge Plant have required a rescheduling of two 94-4 Commitments. Commitments 3.5 and 5.5 were originally scheduled for February 1996. This schedule for accomplishing these commitments cannot be achieved without severely impacting the higher priority task of completing the resumption of the Disassembly and Assembly mission area on time. Therefore, these Commitments and related Commitments 3.6 and 5.6 have been rescheduled for accomplishment later in the year. Change 4 to the Implementation Plan, detailing this change, is listed as Enclosure 6 on the list of January 1996 Deliverables.

If you have any questions, please contact me or have your staff contact Phil Aiken of my staff at (301) 903-4513.

Sincerely,

A handwritten signature in black ink, appearing to read "T. Seitz".
