Although I support this amendment, I think the Board should be cautious in its evaluation of the number and allocation of executive positions in proportion to mission functions. This comparison should be made to agencies of similar size and with *comparable functions*. Clearly, the use of size alone as metric would be misleading and counterproductive. It is worth noting that the Board's technical staff grew by more than 25% from 2007 to 2014 without the addition of any executive positions.

Also, this work would need to be contracted out. This is a major effort which is not included in the OGM Work Plan.
