COMMENTS: Below X Attached _____ None _____

The amendment proposes to simplify a Board letter transmitting a staff technical report on plugging and wear of process piping at WTP. The amendment would remove language addressing specific points raised in the staff report, resulting in a transmittal letter that simply advises DOE to take the report under consideration.

Because I do not support the underlying technical report, I do not intend to support any version of a Board letter transmitting the report. I agree with the Board Member moving this amendment that a simpler letter is a better letter. However, assuming there is a majority in favor of transmitting the report, I defer to those Members in regards to the Board message that should accompany the report. Accordingly, I abstain.
